

BRANDON C. COCHRAN

Environmental Technician

EDUCATION: B.A., Environmental Studies
Western State College of Colorado, 2007

CERTIFICATIONS AND TRAINING:
Colorado/AHERA Certified Asbestos Inspector
CPR Certification

AREAS OF SPECIALIZATION:

- *Field Sampling*
- *Monitoring Well Sampling*
- *Phase I and II Site Assessments*
- *Technical Report Writing*
- *Quality Control/Quality Assurance*
- *Colorado Certified Asbestos Inspector*

PROFESSIONAL EXPERIENCE:

Environmental Technician, All-Phase Environmental Consultants, Inc.

October 2008-Present

Mr. Cochran conducts asbestos inspections throughout Southern Colorado. He is responsible for writing Environmental Site Assessment (ESA) reports according to ASTM Standards; including preparing sampling plan schematics utilizing AutoSketch. Mr. Cochran has a wide variety of experience in environmental monitoring including: water quality, tree pathogen, wetland, soil erosion, wildlife, and fish habitat.

Biological Technician. United States Forest Service, Department of Agriculture (2007)

Mr. Cochran was an intricate part of the inaugural research on Aspen deterioration throughout Colorado. Mr. Cochran was responsible for collecting field data utilizing knowledge in tree pathogens, cavity nesting birds, soil type, insects, and basic site analysis. Mr. Cochran was also responsible for creating maps to be utilized in the field using Geographic Information Systems (ArcGIS 9) software.

RELEVANT PROJECT EXPERIENCE:

Mr. Cochran has experience in soil classification, geoprobing, remediation systems maintenance, and water well sampling. In 2008 he conducted quarterly groundwater sampling at multiple sites in Pueblo, Colorado City, Gardner, and Colorado Springs, CO. He has supervised people in the field and has been responsible for managing large amounts of data. His experience has given him the ability to understand the importance of quality control/quality assurance procedures and the capacity to adapt to ever changing regulations.
